Taco Ring Sandwich

(Recipe makes two ring sandwiches)

4 tubes Crescent rolls (2 tubes per sandwich)

Filling:

1 lb. Ground beef	1 pkg. Taco seasoning mix
1 12oz. jar chunky salsa	2 C. Shredded Cheddar Cheese

Brown ground beef and drain. Stir in taco seasoning and salsa. Simmer for 15 min. Stir in cheese until melted.

Note: Filling can also be served as a dip with tortilla chips.

For sandwich ring, use round baking stone (best results) or pizza pan. Using two tubes of crescent rolls, separate each triangle piece and slightly roll wide edge to flatten somewhat before placing on baking pan. Place in circle formation, keeping rolled edge inside circle while overlapping edges to create a solid wreath affect around center of pan with pointed end facing to the outer edge of pan. Using half of the meat mixture, spoon onto dough around the center, keeping inside edges. Begin with one outer point and fold diagonally over meat mixture and tuck point of triangle under inside edge. Continue in the same direction around circle till all triangle wedges are folded and tucked. May need to slightly roll toward the center to make ring formation. Repeat with remaining two tubes of crescent rolls. Bake according to crescent roll directions, or until golden brown (350° - 375°, 15-25 min.). Let cool 15 min., slice on diagonal lines before serving.
